EPA-HQ-2018-009656	Stanley Tromp	7/16/2018	Monica Lewis	records on this issue, from Sept. 1, 2017 to the present day – the pollution, effects on fish, and the political dispute: commission tasked with protecting the quality of water flowing across the Canada/U.S. border went public with claims that Canadian commissioners are refusing to accept scientific data that shows an increase in selenium pollution from B.C.'s Elk Valley coal mines;

Selected FOIA Requests – 07.11.2018-07.18.2018

					Two U.S. commissioners on the International Joint Commission released a letter to the U.S. State Department that says Canada's three representatives on the commission will not endorse a recent report that shows risks to aquatic life and humans from selenium pollution from five Teck Resources Ltd. coal mines the polluted water, which leaches from massive amounts of waste rock at Teck's metallurgical coal mines, flows into the Elk and Fording Rivers in B.C., then into the Kootenusa Reservoir which straddles the border and finally into the U.S. Kootenai River before curling back up into Canada at Creston. Teck's five metallurgical coal mines are all upstream of the transboundary Kootenusa Reservoir.
